Our Zelator Rug – North Up

In astrology, each zodiac sign has a ruling planet. The following shows the planets that rule each sign. Note that we've added the classical rulers of signs in *brackets*. These rulers were assigned to the signs before Uranus, Neptune, and Pluto were discovered. These classical rulers are still used by some astrologers. Note also that some planets rule two signs.

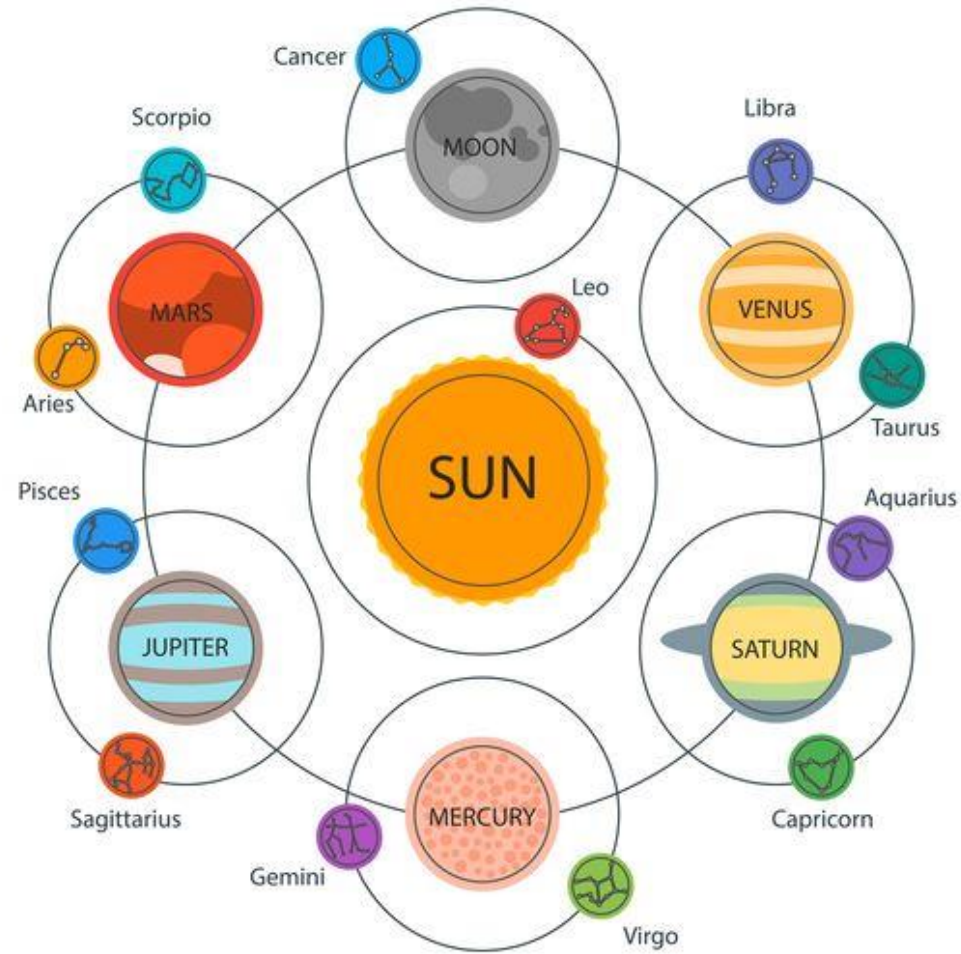

Aries – Mars
Taurus – Venus
Gemini – Mercury
Cancer – Moon
Leo – Sun
Virgo – Mercury
Libra – Venus
Scorpio – Pluto (Mars)
Sagittarius – Jupiter
Capricorn – Saturn
Aquarius – Uranus (Saturn)
Pisces – Neptune (Jupiter)

When interpreting a birth chart, the "chart ruler" is the planetary ruler of the sign on the Ascendant, or first house. For example, if Aries is the Ascendant, the chart ruler would be Mars. If Taurus is found on the second house, then Venus is said to rule the second house. If Gemini were on the second house, then Mercury rules the second house.

Signs and their planetary rulers
