Flowers

Deadheading Flowers

- According to the Google the definition for deadheading geraniums is:

“a simple technique that involves removing dead or dying flowers to encourage the plant to produce more flowers and prevent it from forming seeds.”

Lodge Growing?

- New Officers
- Existing Officers
- Past Masters
- New Members
- Old Members
- Existing Members

"You know, the new line of officers isn't half bad."

"Nope, they're ALL bad!"

Petunia Deadheading

- Look at this picture... What do you see?

Here is what I see

- I see a new flower
- I see some dead flowers
- I see new growth
- I see an existing plant

What We See

- You see strength
- You see Beauty
- You see Wisdom

The Tender Shoot

- We are reminded through out the degrees of Masonry of deadheading.
- First in the 1^o - We are reminded “From we came... “So, to it we must return.
- In the 3rd Degree – He cometh forth as a flower and is cut down...
- In the Master Prayer at the Grave – “for there is hope of a tree, if it be cut down, that it may sprout again & that tender branch thereof will not cease...”

Stop and Smell the Flowers

Any Questions
