Good afternoon fellow Fratres and a warm welcome to our new Fratres. I plan to make this a short presentation followed by a short question and answer period. A longer version of this presentation will be posted soon on our website. Besides learning about these 3 new laws - my main message of this paper is - "Don't kill the messenger".

The Purpose of our SRICF College

Our SRICF College is very different from any other Masonic organization or Masonic body. We have capabilities and objectives that no other Masonic group has. We can conduct our own research and present and distribute written research papers! We are an open-minded group that can agree, disagree, and debate many subjects in a civil manner! This is not like a Lodge, and not like a York Rite, a Scottish Rite, or a Shine meeting. We are here to teach, to listen, and to learn. We are all here to share what we know with one another other in a formal atmosphere – just like in an official college!

As stated in our ritual books: The aim of our society is – “to afford mutual aid and support in the study of the great secrets of Nature, Science, the Great Problems of Life, and the Wisdom of the ancient world through the doctrines of Hermes Trismegistus and the Kabbalah.” Please note the category “the Great Problems of Life”.

Review of Plato's Cave

Our SRICF College is based on the story called “Plato's Cave” - where the people live in an isolated cave, and every so often a few venture outside of the cave, see what is outside, and then they return to report what they have seen. Are they rewarded? Hardly! In most versions of the story, they are usually immediately killed! Why? Because when people are confronted with such new information, they get angry! Why? Because it has been shown that - when confronted - such people actually go through 5 emotional stages - in this order: Denial, Anger, Bargaining, Depression, and finally Acceptance. These are usually called the “The Five Stages of Grief”. When encountering any brand new or confrontive information - this is too be expected! We expect to get angry!
Good!

So - let's confront this new information - and get beyond any anger – and learn!

Here we go...

We are now returning from doing our research “outside of the cave”

Hey! Look what we found – in the book “Beyond Esoteric” – published in December 2020 by a Senior Fellow with the Center for Universal Education at the Brookings Institution - an American research group founded in 1916, located on Think Tank Row in Washington, D.C. [1]

For the purposes of this limited paper: Fair Use with In Copyright - Educational Use Permitted.

We found - Three New Laws Found Outside of the Cave

I will discuss each new law in turn for about a minute. They are more fully discussed in the written paper on our website which will be updated.

Mostly I will quote and paraphrase from the book – These Three Laws -

1 - ON THE USE OF HUMAN SUBJECTS FOR TESTING OF CHEMICAL OR BIOLOGICAL AGENTS, 105th Congress Public Law 85, of November 18, 1997 [2]

This law is commonly cited in research papers as giving the US Government the legal power to conduct experiments on US “Citizens”. The term “Citizen” was legally defined in the Act of 1871, which created the US Government in Washington DC, effectively turning it into a corporation, and declared that all the people would be considered “Citizens” - or “employees of the corporation” – “to serve the Corporation”. [1, p27]

There have been many instances of such unannounced or secret chemical experiments on Citizens. The idea of spraying aluminum into our atmosphere has a long history. Patents exist that clearly demonstrate the permissive use of such materials that include the oxides of metals which have emissivity. These include harmful substances like aluminum oxide and thorium oxide. Examples include the spraying of the bacteria *Serratia marcescens* over the city of San Francisco in 1950; projects Bluebird and Artichoke [1, p434], and in other more recent projects [3,4,5].

This 105th Congress Public Law 85 also clearly states that “(b) Exceptions.--Subject to subsections (c), (d), and (e), the prohibition in subsection (a) does not apply to a test or experiment carried out for any of the following purposes: (1) Any peaceful purpose that is related to a medical, therapeutic, pharmaceutical, agricultural, industrial, or research

activity.” Experimental research on “Citizens” is therefore legal. “Everything They Do To Us Is Legal.” [1, p173]

The lines in the sky that are formed by certain (classified program) airplanes that spray these chemicals are called “Chemtrails”. They are easily distinguished from normal “contrails”, as contrails are basically steam formed in the sky after the plane passes and they do not appear to touch the airplane, and they usually dissolve and dissipate very quickly. On the other hand, chemtrails (being like a powder) do appear to touch the airplane and they spread out or feather out in 10 to 30 minutes - and they turn the downwind section of the sky into a light grey color. While chemtrails may have initially started out as rain making projects seeding clouds using small particles of Aluminum, Barium, and Iodine, laid down in front of approaching rain cloud fronts (usually at 12,000 feet altitude) many chemtrails now are known to contain very toxic dust (such as the ash from coal fired plants), biological agents, and since 2006 even “smart dust” and DNA genetically modified pathogens! [1, p311] Here is a list of US Patents that helped create these programs: 1619183, 2045865, 2591988, 3437502, 3531310. [1, p181] Note “What’s In A Chemmie?” [1, p175]

There is also the well-known disease called “Morgellons Disease” that is caused by spraying DNA & RNA that inserts insect DNA Ecdysone into the living bodies of humans! The US Patent is US 10,130,701 B2 dated Nov. 20, 2018, titled: “Polynucleotide Encoding Insect Ecdysone Receptor, US 6245531 B1”. There are many pictures on the internet that shows the hair that grows out the human body due to this painful disease. The CDC has concluded that “Morgellons is a psychiatric disorder and not a disease”. [1, p433, & p447] [6]

Research is continuing to find a cure for “Morgellons Disease” and for the effects of chemtrails in general. The author of Ref. 1 personally has these diseases, and he writes that he has found one protocol to be very effective and helpful. [1, p437]

We should also recall that the Nuremberg Code is a set of research principles regarding human experimentation that were established at the end of the Second World War. In short, it established that no person may be experimented on, or be forced with vaccination, without their full consent. The first key point in the code states: “Required is the voluntary, well-informed, understanding consent of the human subject in a full legal capacity.” [1, p434]. This Code should be able to be used to legally overturn many experiments that are now being conducted on humans without their consent and without well-informed understanding of the experiments - and their possible consequences!

2- HR 5736 SMITH-MUNDT MODERNIZATION ACT OF 2012 [5]

In 1948, there was a sensible law passed so that our government couldn’t use domestic propaganda against its own citizens. This was essentially overturned in May 2012 -

when a Texas Republican introduced an act called HR 5736 Smith-Mundt Modernization Act of 2012, which was an amendment to the 1948 bill, making it LEGAL for the government to disseminate its own propaganda in America using the press, publications, the radio, motion-picture films, the Internet and social media, - while ALSO giving themselves the right to put any propaganda they want directly into the archives, no questions asked! Which means that these lies in time would officially become history in an "Orwellian "Ministry of Propaganda." This bill died in the Senate - but was brought up again AND PASSED AS AMENDMENT in the 2012 National Defense Authorization Act (NDAA) found on pages 326-328! [8,9] As stated on MaxKeiser.com, "it is the same exact bill except one word is left out!"

This is why we see so many false flag operations occurring, and this is why false flags will continue – because - they made it legal...! [1, p27]

Wikipedia says: "A false flag operation is an act committed with the intent of disguising the actual source of responsibility and pinning blame on another party."

Let's not get distracted by naming several obvious examples that come to mind...

3 - COUNTERING DISINFORMATION AND PROPAGANDA ACT, quietly inserted inside the National Defense Authorization Act (NDAA) Conference Report of 2017 [10]

On December 8, 2016, the government created a veritable and suspicious "Ministry of Truth" when then-president Barack Obama quietly signed the "Countering Disinformation and Propaganda Act" into law. Long before "fake news" became a major media topic, the U.S. government was already planning its legally-backed crackdown on anything that it would eventually label "fake news." This gives the government the legal right to say what should be on the news, and what should not be published anywhere.

When the "Countering Disinformation and Propaganda Act" passed in the Senate, it was quietly inserted inside the 2017 National Defense Authorization Act (NDAA) Conference Report. And now, the Countering Disinformation and Propaganda Act is law, seen as part of "national defense"!

Since creating fake news by our government is now legal, it can be parroted across all networks, and hammered into our heads until the repetition makes us believe it is true!

NOW THE REAL THREAT TO THE ACTIVE FAKE NARRATIVE IS THE ALTERNATIVE MEDIA, in which laws against our freedom of speech are currently underway!

It further sets the stage for future witch hunts and website shutdowns, purely as a result of AN ACCUSATION that any one media outlet or site is considered as a source of "disinformation and propaganda." Not based on any proof – Just on the accusation!!!

This brings to mind many recent news stories about - Google? Facebook? Twitter? CNN?...

Have you ever heard of the Google Black List? [11,12,13,14] If not - you should learn about it now! Managers at Google can now legally delete the access to any website and videos on any subject at any time! Just by accusations alone! Or by just being told to! Without any debate or any proof!

Fortunately – most such overtly suppressed articles and videos on these “unpopular subjects” can be found elsewhere - and NOT on Google – such as on Yandex.com and Rumble.com. [15,16]

Now What?

These three laws really do raise some serious and very important questions!

Should they be allowed? Should they be cancelled?

Should the Citizens of this country be allowed to know that they legally exist and that are being actively used?

I think so!!!

Do you?

We now have a few minutes for questions and answers.
